Inequities in Piped Water

SAFELY MANAGED SANITATION

KEY CHALLENGES

- Delays in rolling out and implementation of institutional and governance reforms at the district, sub district and community levels.
- Challenges in acquiring necessary skill and essential knowledge along with trained human resources for safely manage services (accessibility, availability, affordability & quality).
- Lack of appropriate level of investment in wash in addition to unequal distribution of resources in sub sectors and district level.

WAY FORWARD

- Facilitate system strengthening for water safety, planning and implementation especially in water quality surveillance.
- Capacity development for creating systems and mechanisms regarding on-site and off-site treatment.
- Implement Clean Green Pakistan Index for effective monitoring and policy advocacy.
- Mobilise the youth and communities for Clean Green Pakistan Movement (CGPM) and self-help initiatives.
